PROFESSIONAL SUMMARY

Software engineer focused on building web and mobile applications with Next.js and React Native. Experienced in developing user interfaces, integrating backend services with Supabase, and working on applications such as e-commerce platforms, food ordering, appointment booking, personal finance, and AI-assisted meal discovery. Interested in creating practical, user-friendly digital products.

TECHNICAL SKILLS

Web: Next.js, React, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS
Mobile: React Native, Expo, Expo Router, responsive mobile UI
Backend & Data: Supabase, PostgreSQL, authentication, database CRUD, API integration
Payments & AI: Stripe, Google Gemini
Tools: Git, GitHub, Vercel, Postman

WORK EXPERIENCE

Junior Frontend Developer — Co-Creative

Contributed to frontend development and user interface implementation. Specific responsibilities and project outcomes can be added once confirmed.

Software Developer — Mercibon

Currently working on an inventory management application using React Native for the application interface and Supabase for backend services.
